

American Red Cross FR150 MICROLINK

SPECIFICATIONS

Solar-Powered, Self-Powered AM/FM/Weatherband Portable Radio with Flashlight and Cell Phone Charger

The Microlink brings together some of the most popular features of our Voicelink, in a more compact design. This ultra-portable device is ideal to have on hand when you're roughing it. It also makes a great addition to any emergency-preparedness kit. No plugs or wires are required. Instead, turn the hand crank to power the Microlink, or capture the sun's energy and run it on solar power. You'll always know what's going on, thanks to the AM, FM and weather bands. You can also tune in to the FCC and EAS public alert systems. Add the flashlight, the cell phone charger and you've got one versatile little device.

FEATURES

- AM (520-1710 KHz)
- FM (87-108MHz)
