

Save money and time.

Smart Strips automatically turn off connected devices when *not in use!*

CONTROL OUTLET

Turn this outlet on and off and see how it controls the Switched Outlets. This outlet is perfect for computers and TV's.

CONSTANT HOT OUTLETS

These outlets remain on regardless of whether the Control Outlet is on or off. These outlets are perfect for lamps and phones.

SWITCHED OUTLETS

These outlets turn off with the control outlet preventing wasted current. This is where you plug in your peripherals like printers and DVD players.
